

Intent to Enlist Information

From TEA's 2018 FAQs located at: <https://tea.texas.gov/perfreport/account/2018/faq.html#q33>

How do districts collect, report, and document that a student has enlisted or intends to enlist in the U.S. Armed Forces for College, Career, and Military Readiness?

Each district decides how to collect and document this indicator. Documentation may include a senior survey, contact with a local recruiter, or any other method. Each district must maintain supporting documentation which may be subject to audit by the agency.

Question from Slido from our April 24 A-F Accountability Update Series

What are districts using to document intent to enlist for CCMR? Can Region 13 gather examples from districts and share out?

This is a great suggestion. We will see if this is something we can gather using site-visits and word of mouth.

Rebecca Hudson, ESC 13 Coordinator for TSDS/PEIMS, reached out to districts in Region 13 to ask how they are documenting intent to enlist for CCMR. She had several people respond:

For the most part, Region 13 districts are issuing a Senior survey – most of them at Graduation Practice or as a form to be completed in order to have final transcripts sent out. Here are the responses received:

1. Exit interview with each Senior (small district) that includes a section on military enlistment or intent to enlist
2. College/Military Enlistment Survey – filled out during a designated class period to ensure the form is received back from every Senior
3. Senior Clearance Packet – final transcript request form with military enlistment question
4. Military Enlistment/Intent to Enlist Form for Graduates
5. High School Exit Survey – “By this time next year, what do you plan to be doing?” with selection options
6. Students bring a note/letter back from the recruitment office to document the absence and their intent to enlist
